PRODUCT DESCRIPTION

The **SAPslim Cubicle System** is our newest, entry-level cubicle/divider product line. This versatile cubicle divider panel system was designed with affordability and practicality in mind. Its lightweight, modular construction makes it easy to quickly assemble in any work environment.

All panels are covered by our Sea Salt laminate with worksurfaces in White laminate. Consider this a basic "starter" configuration for a call center... you can easily order additional cubicles that will slide and lock into the existing unit so you can expand or deduct as needed.

Nearly any part of the configuration you see pictured here can be added to, modified, or re-imagined. The Sea Salt laminate panels can be replaced with frosted polycarbonate or multiple colored fabric

surfaces. Pedestal cabinets can be added to each cubicle, if needed as well. There are plenty of inexpensive extras you can add to the b as well.
