PRODUCT DESCRIPTION

Why Buy Our Side-by-Side Reception Workstation?

Are you looking for side-by-side reception workstations? The **Sapphire Cubicle System** is our premier cubicle workstation product line. This commercial-grade cubicle system is both scalable and durable. Its lightweight construction makes it a sound investment for any office or work environment. Because of its

modular design, any number of side-by-side reception workstations can be made. Also, this cubicle system features a variety of choices for the panels (multi-colored fabrics, patterned laminates, and tempered glass) and offers panels reaching 39", 52", and 65" in height. And don't forget, this cubicle system also offers electrical cord/data networking cable conduits along the base of each panel to hide cable clutter.

What Comes With This Product?

The side-by-side reception workstation pictured on this page shows our **Sapphire Cubicle System** divider panel with two, 120 degree worksurfaces and a transaction shelf which runs the length of the unit. This arrangement is often ideal for greeting customers, medical facilities, reception areas, and other applications. You can select different colors for the panels, change the overall sizes of the 120 degree worksurfaces, adjust the height of the panel divider walls, or select a different laminate for the worksurfaces if you'd like. Also, there are many extras you could add to your reception desks such as locking storage bins, pedestal cabinets, accessory racks, monitor arms, paper trays, writing utensil holders, and many other features to complete your project.

What Else?

Finally, it's important you have a clear understanding of all accessories and choices available for our side-by-side reception workstations. For this reason, we suggest you contact *SKUTCHI Designs Inc.* today. We'd be happy to answer your questions before your purchase.
